For Distribution and Use Only within the State of North Dakota

Weed Control in Niger (*Guizotia abyssinica*)

No portion of the treated field, including seed, seed screenings, hay,
forage or stubble, may be used for human or livestock feed.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Treflan HFP before applying. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.
- Use of Treflan HFP according to this supplemental labeling is subject to all precautions and limitations imposed by the label affixed to the container for Treflan HFP.

Directions for Use

Apply Treflan* HFP herbicide as a preplant incorporated treatment prior to planting Niger. Refer to the product label for Treflan HFP for applicable use directions, including incorporation directions, weeds controlled, precautions and restrictions. Because Treflan HFP does not control established weeds, existing weeds should be destroyed by use of cultivation or appropriate herbicides prior to applying.

Broadcast Application Rates:

Soil Texture	Treflan HFP (pt/acre)
Coarse	1.0
Medium	1.5
Fine	2.0

Restrictions:

- **Chemigation:** For use under this SLN label, do not apply this product through any type of irrigation system.
