

## Section 24(c) Special Local Need Label

**FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF  
NORTH DAKOTA**

**BRAVO WEATHER STIK<sup>®</sup>**

EPA Reg. No. 50534-188

EPA SLN No. ND-020009

**For Control of Rust and Septoria Leafspot on Mint**

**KEEP OUT OF REACH OF CHILDREN**

### **WARNING – AVISO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS  
ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY,  
OR ILLEGAL RESIDUES.**

### **DIRECTIONS FOR USE**

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

This label must be in the possession of the user at the time of pesticide application.

DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during applications. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

This product may be applied through sprinkler irrigation systems. Refer to the EPA-registered BRAVO WEATHER STIK label for directions for use.

**RECOMMENDATIONS FOR CONTROL OF RUST AND SEPTORIA LEAFSPOT ON  
MINT**

| CROP | DISEASE   | Pts Product/A<br>(lbs. a.i./A) | APPLICATION DIRECTIONS   |
|------|---|--------------------------------|--|
| Mint | Rust<br>( <i>Puccinea menthae</i> )<br><br>Septoria Leafspot<br>( <i>S. menthae</i> ) | 1.40 pts<br>(1.0)              | Use in sufficient water to obtain adequate coverage, normally 20 to 150 gallons per acre for dilute sprays and 5 to 10 gallons per acre for concentrate ground and aircraft applications. Begin applications when emerging plants are 4-8 inches high. Repeat at 7 to 10 day intervals or as necessary to maintain control. DO NOT apply more than 3 times per season. DO NOT apply within 80 days of harvest. DO NOT feed fresh or extracted mint hay from treated fields to livestock. |

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic invertebrates and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash water or rinsate. This chemical is known to leach through soil into groundwater under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

This chemical can contaminate surface water through spray drift. Under some conditions, it may also have a high potential for runoff into surface water for several days to weeks after application. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas over-laying extremely shallow ground water, areas with infield canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas over-laying tile drainage systems that drain to surface water.

Expiration Date: January 1, 2014
