

**SUPPLEMENTAL LABELING
FOR DISTRIBUTION AND USE ONLY WITHIN NORTH DAKOTA**

VITAVAX[®] 200

**FLOWABLE FUNGICIDE
(VITAVAX WITH THIRAM)**

EPA REG. NO. 400-112

COMPOSITION

Active Ingredients: (% by weight)	
Carboxin (5,6-dihydro-2-methyl-N-phenyl-1,4-oxathiin-3-carboxamide)*	17.0%
Thiram (tetramethylthiuram disulfide)	17.0%
Inert Ingredients	66.0%
Total:	<u>100.0%</u>

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

The following Supplemental Labeling is in addition to the Vitavax-200 Flowable Fungicide label.

SAFFLOWER

Use 4 fluid ounces of VITAVAX-200 Flowable Fungicide per 100 pounds of seed for control of seedling diseases and seed borne rust. Apply as a slurry by machine. VITAVAX-200 may be diluted with water to improve seed coverage. Dilution requires constant slurry agitation before and during use.

COMPATIBILITY

VITAVAX-200 Flowable Fungicide should not be tank mixed with any pesticide unless adequate physical compatibility and phytotoxicity tests have been completed and proved to be satisfactory.

USE PRECAUTION

When using formulations that do not contain dye, to comply with 21CFR Chapter 1, Section 2.25 all grain seed treated with economic poison must be colored with an approved dye (40CFR 180.1001) to distinguish and prevent subsequent and inadvertent use as a food for man or feed for animals.

SEED LABELING

1. **"This seed is treated with carboxin and thiram (VITAVAX-200 Flowable Fungicide) at the manufacturer's recommended rate. Do not use treated seed for food, feed, or oil purposes." Add appropriate information for any other chemical treatments. Consult the manufacturer for additional tagging requirements.**
2. **"Planting Note: Seed treated with VITAVAX-200 Flowable Fungicide does not flow freely as untreated seed. The drill should therefore be adjusted to compensate for this restricted seed flow to prevent lower than desired seed rates."**
3. **"Augers used for handling treated seed should not be used to move seed for feed, food or oil processing."**
4. **Do not re-use bags from treated seed to handle food or feed products."**

All application directions, and restrictions, and precautions on the EPA-registered label are to be followed. This label must be in the possession of the user at the time of the pesticide application.
