DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR SENSITIVE LAWNS: Bentgrass, buffalo grass, centipedegrass & St. Augustinegrass (DO NOT USE ON Floratam*). Amount to Use: 1 fl oz (2 Tbs) per gallon of water for each 400 sq ft. When using Ortho® Dial 'N Spray® applicator: Set dial to 1 oz. Add 21/2 fl oz (5 Tbs) to sprayer jar. DO NOT ADD WATER. Spray evenly over 1,000 sq ft until jar is empty. * Floratam is a variety of St. Augustinegrass widely grown in Florida.

FOR HARDY LAWNS: Bahiagrass, Bermudagrass, fescue, Kentucky bluegrass, perennial ryegrass & zoysia grass. Amount to Use: 2 fl oz (4 Tbs) per gallon of water for each 400 sq ft. When using Ortho® Dial 'N Spray® applicator: Set dial to 2 oz. Add 5 fl oz (10 Tbs) to sprayer jar. DO NOT ADD WATER. Spray evenly over 1,000 sq ft until jar is empty.

REFILL DIRECTIONS

To refill empty 1.33 Gallon Weed-B-Gon Ready-to-Use Pull 'N Spray® bottle: Amount to Use: Add 7 oz of this product to the empty 1.33 gallon container. Slowly fill with 160 oz of clean tap water. Specially formulated for residential use.

FOR BEST RESULTS

MEASURE

• To treat entire lawn (broadcast application): Use a tank or hose-end sprayer. Measure lawn. Calculate square feet by multiplying length times width. Spray evenly over measured area.
• To spot treat individual weeds in lawns: Use a tank sprayer.

WHEN TO MOW AND WATER

Do not mow for 1 to 2 days before or after application:
• If soil is dry, water 1 to 2 days before application.
• Rain or watering 2 hours after application will not wash away effectiveness.

WHEN TO APPLY

• Spray when:
  – weeds are small and actively growing
  – temperature is below 90°F
  – air is calm to avoid spray drift onto landscape plants as contact with foliage may injure flowers, shrubs, trees and other desirable plants
• Reapplication can be made in 2 to 3 weeks if necessary.
• Newly seeded lawn can be sprayed after first mowing.
• Bare spots can be planted with grass seed 1 week after application.

IMPORTANT

If an ornamental shrub or tree is in the lawn, keep spray off foliage and exposed roots. St. Augustinegrass, centipedegrass or Bermudagrass lawns may have delayed green-up if this product is used when lawns are emerging from dormancy or when temperature drops below 45°F within 72 hours of application. Do not spray carpetgrass, dichondra or desirable clovers. Do Not Use On Floratam, a variety of St. Augustinegrass. Do not use on or around fruits, vegetables or flowers. The maximum number of broadcast applications per treatment site is 2 per year. Do not exceed specified dosages for any area.

HOW IT WORKS

Because broadleaf weeds and grasses grow differently, Weed-B-Gon® kills broadleaf weeds without harming lawns. Weed-B-Gon® Kills Weeds Not Lawns. Singles out weeds, enters through leaves and moves inside the weed to the roots.

*WEEDS CONTROLLED

white heath aster, bushy aster, heath aster, purple aster, white prairie aster, catchweed bedstraw, marsh bedstraw, northern bedstraw, hairy beggarticks, creeping beggarweed, threeflower beggarweed, florida bellflower, Florida betony, field bindweed, hairy bittercress, whitehead broom, burclover, common burdock, great burdock, lawn burweed, smallflower buttercup, hairy buttercup, bushy butterweed, Virginia buttonweed, black medic, carpetweed, cat’s-ear, smooth chaff-flower, common chickweed, mouse-eared chickweed, sticky chickweed, chickory, common cinquefoil, oldfield cinquefoil, alcey-clover, crimson clover, hop clover, white clover, wandering cudweed, purple cudweed, narrowleaf cudweed, shiny cudweed, cupids shaving brush, English daisy, oxeye daisy, common dandelion, false dandelion, catsear dandelion, dayflowers, purple deadnettle, dog fleabane, ivyleaf fleabane, rough dock, Florida evening primrose, evening primrose, blackseeded plantain, poison ivy, poison oak, cutleaf evening primrose, (continued)
**FIRST AID (continued)**

Immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
- **NOTE TO PHYSICIAN:** Emergency information call 1-800-225-2883

**ENVIRONMENTAL HAZARDS:**
This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target area. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and MCPP-p have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D and MCPP-p pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

**The ORTHO Guarantee**
If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.
