## FOR CONTROL OF MOSQUITO LARVAE

### KEEP OUT OF REACH OF CHILDREN CAUTION

#### PRECAUTIONARY STATEMENTS:

**HAZARDS TO HUMANS:** Avoid contact with eyes or open wounds.

**ENVIRONMENTAL HAZARDS:** Do not contaminate water when disposing of equipment washwaters. Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of waste.

**Storage:** Tightly reclose containers of unused pellets. Store in a cool, dry place, out of direct sunlight.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility in accordance with federal and local regulations.

**Container Disposal:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Apply 1.25 to 16 pounds pellets/acre with aircraft or ground equipment. Use the higher rates in heavily polluted water, when populations are high, when larvae are nearly grown or in fourth instar, and when aquatic or covering vegetation is dense. Most treatments require no more than 5 pounds/acre. Apply only when mosquitoes are larvae, not pupae.

#### CONDITIONS RATES (Lbs./Acre)

Pools, ponds, flood water, pastures, ditches, ricefields, brackish water, light to moderate populations. 1.25 - 5

Catch basins, tidal water, salt marshes, storm water retention areas, mangrove swamps, moderate pollution or organic content. 5 - 8

Allow 24 hours for control. Under certain conditions such as sewage waste lagoons, high pollution or organic content, heavy vegetative cover, high populations, and catch basins, the above application rates may be doubled.
