BugBandTM

REPELS MOSQUITOES, FLIES, GNATS,
NO-SEE-UMS & FLEAS

SAFE AND EFFECTIVE. EASY TO USE!

BugBand™ Insect Repellent Bead Bags contain Geraniol, a citrus-fragranced natural ingredient that repels insects. For window or wall air conditioners, attach the net bag to filter or louvers. For small central AC units, attach to center of clean air filter. In automobiles, trucks, airplanes, boats and buses, place bags under seats, in air circulating systems or in ashtrays. At campsites and other outdoor activities, place bags in tents, campers, canopies or canvas folding chairs. Also place on screened porches, patios and other outdoor enclosures. Use around pet bedding areas, kennels or anywhere insect repelling is desired.

USE ONLY AS DIRECTED.

CAUTION:

Non-edible scented plastic pellets. Potential choking hazard if swallowed. Keep out of reach of children.

FIRST AID:

If swallowed: Remove obstruction from airway. Contact physician for further treatment advice.

Storage and Disposal: Store in cool area away from heat. Dispose of in trash or recycle bin.
