Oriskany, NY 13424

BONIDE BULB DUST is a combination of ingredients chosen for their holistic bulb care properties. Grow healthy bulbs **resistant** to insect, disease and rodent depredation. **May be used on all varieties of bulbs, corms and rhizomes.**

BULB STORAGE

Remove bulbs after ripening but before skins dry and break. Cut off leaves and stem after bulbs have dried. Remove soil and old skin. Put bulbs in a plastic or paper bag with Bulb Dust and shake gently to coat bulbs thoroughly; or dust bulbs directly, covering thoroughly, in open container. Store bulbs on screening and observe temperature, humidity recommendations.

PLANTING

Bulbs treated for storage, if still coated can be planted directly. Otherwise treat as for storage and plant.

SLURRY COATING

Mix 8 oz. in ½ gallon of water, dip bulbs in slurry on plastic or metal screening or netting, roll with stick to cover each completely, remove and dry for storage or may be planted directly.

First Aid and User Precautions:

CAUTION. Product can cause moderate eye irritation. For certain individuals, skin irritation may occur.

In case of eye contact, flush with plenty of water, seek medical attention if irritation persists. In case of skin irritation, wash area thoroughly with soap and water, seek medical attention if irritation persists.

STORAGE AND DISPOSAL

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.
