**SENCOR® DF 75% Dry Flowable  
Herbicide**

**For Use on Soybeans**

**EPA Reg. No. 264-738**

**EPA SLN. No. NC-840005**

## **24(c) Supplemental Label**

### **OR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF NORTH CAROLINA**

#### **DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Refer to EPA registered product label for SENCOR DF, EPA Reg. No. 264-738, for chemigation instructions.

#### **SOYBEANS**

SENCOR DF may be applied as a preemergence overlay application following a preplant incorporated treatment of Treflan® for the control of sicklepod in soybeans grown in coarse textured, low organic matter, coastal plains soils. Refer to the federally registered label for appropriate directions for use, recommended applications and special precautions prior to use on these soils.

#### **RECOMMENDED APPLICATIONS**

SENCOR Overlay Application Following Treflan Applied Preplant Incorporated: SENCOR DF may be applied at the rate of 1/3 lb/acre as directed on the label as a preemergence broadcast or band overlay application on coarse (light) soils following a pre-plant incorporated treatment of Treflan E.C. at the rate of 1 pt/acre. Consult the SENCOR and Treflan labels for specific directions for use, recommendations and restrictions and for additional weeds not specified on this label. Do not use on coarse textured soils, (loamy sand or sandy loam) with less than 0.5% organic matter or sand with less than 1% organic matter.
