When used on Christmas trees, the use directions on this 24(c) labeling supersede use directions on the label attached to the Di-Syston® 15% Granular Systemic Insecticide 2.5 gallon plastic containers.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

This product is packaged to be used in a closed application system (such as Select-A-Feed). When applying this product to Christmas trees, a closed application system must be used. All loaders/applicators must use and maintain the system in a manner that is consistent with the WPS for Agriculture Pesticides [40 CFR 170.240(d)(4)].

CROP	PEST	RATE	REMARKS
Christmas Trees	Aphids Mites Nantucket Pine Tip Moth Scales	20 to 30 lbs/A	Spread the granules in the root zone of the trees at the dripline and work into soil or water thoroughly within 48 hours of application. Not for use in bare-ground plantations. For use by commercial growers or professional applicators only.

CONTAINER DISPOSAL:

Completely dispense contents of 2.5 gallon containers. Then dispose empty container in a sanitary landfill or by incineration, if allowed by the state and local authorities.
