

EVIDER

Active Ingredient:

Sodium Lauryl Sulfate.....100.0%

KEEP OUT OF REACH OF CHILDREN

WARNING:

Causes eye, skin, and respiratory irritation. May be harmful if swallowed. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing dust.

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If symptoms persist, get medical attention.

If Swallowed: Rinse mouth, then drink one or two glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Have the container label with you when calling a poison control center or doctor, or going for treatment.

FOR EMERGENCY MEDICAL INFORMATION, CALL: 1-800-328-0026.

Personal Protective Equipment

Persons handling concentrate are recommended to wear:

- Eye protection
- Impervious gloves
- Respirator

Evider can be used indoors and outdoors to control accessible, exposed stages of German cockroaches.

For use in and around but not limited to areas such as: Apartment buildings, bakeries, beverage plants, bottling facilities, breweries, cafeterias, candy plants, canneries, cereal processing and manufacturing plants, cruise ships, dairy barns, poultry facilities, flour mills, food processing plants, frozen food plants, homes, hospitals, hotels, houses, industrial buildings, kennels, kitchens, laboratories, manufacturing facilities, mausoleums, meat processing and packaging plants, meat and vegetable canneries, motels, nursing homes, office buildings, organic facilities, restaurants, schools, stores, supermarkets, warehouses, other public buildings and similar structures.

Modes of Transport

Aircraft, buses, trucks, trailers, rail cars and marine vessels.

Net Contents: 2 lbs./907 g

Directions for Use

Dilution: Using enclosed scoop, mix one scoop (37.4 grams) of *Evider* into one gallon of water, resulting in a 1.0% *Evider* use solution. Use diluted solution within 24 hours after mixing to avoid product settling in application equipment. If a foaming application is desired, mix the appropriate amount of foaming agent into the *Evider* finished solution.

Application: Apply this product as a surface spray or foam. Food-contact surfaces and equipment must be covered during treatment or cleaned with an effective detergent and rinsed with potable water before reuse. This product provides contact kill with no residual activity. For best results, apply in such a manner that cockroaches are contacted directly with the liquid or foam barrier and become saturated.

Application Sites: Thoroughly spray areas where these insects are usually found with special attention to cracks and crevices, niches, dark corners, drains and other harborage sites.

Tank Mixing: Tank mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label dosages may be exceeded. This product cannot be tank mixed with any product with label prohibitions against such mixing.

STORAGE & DISPOSAL

Store in a cool, well-ventilated area. Keep container tightly closed.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
