VIGORTONE®
3V2 SCTC-IGR
MEDICATED
All Weather Formula
For Beef Cattle on Pasture

For the control of bacterial pneumonia associated with shipping fever complex caused by Pasteurella spp. susceptible to chlortetracycline.

Chlortetracycline .................................................. 1.4 g/lb

PREVENTS ADULT HORN FLY EMERGENCE FROM MANURE OF TREATED CATTLE
A nutritional supplement containing S-Methoprene® Insect Growth Regulator for continuous feeding to cattle through the horn fly season.

ACTIVE INGREDIENT: S-Methoprene (CAS# 65733-16-6) ................. 0.01%
OTHER INGREDIENTS .................................................................. 99.99%
TOTAL ........................................................................ 100.00%

*As the Insect Growth Regulator ALTOSID®

INGREDIENTS
Monocalcium Phosphate, Dicalcium Phosphate, Calcium Carbonate, Salt, Magnesium Oxide, Bentonite, Corn Distillers Dried Grains with Solubles, Molasses Products, Yeast Culture, Vitamin A Acetate, Vitamin D₃ Supplement, Vitamin E Supplement, Cobalt Carbonate, Copper Chloride, Ethylenediaminetetraacetic Acid, Manganese Sulfate, Zinc Oxide, Iron Oxide, Natural and Artificial Flavors, Mineral Oil

INGREDIENTS
Calcium (Ca), minimum .................................................. 13.00%
Calcium (Ca), maximum .................................................. 15.00%
Phosphorus (P), minimum .................................................. 7.00%
Salt (NaCl), minimum .................................................. 18.20%
Salt (NaCl), maximum .................................................. 21.80%
Magnesium (Mg), minimum .................................................. 1.00%
Potassium (K), minimum .................................................. 0.10%
Copper (Cu), minimum .................................................. ppm 2,000
Selenium (Se), minimum .................................................. ppm 26.40
Zinc (Zn), minimum .................................................. ppm 7.50
Vitamin A, minimum .................................................. IU per lb 400,000
Vitamin D₃, minimum .................................................. IU per lb 20,000
Vitamin E, minimum .................................................. IU per lb 200
Calcium (Ca), minimum .................................................. ppm 13.00%
Calcium (Ca), maximum .................................................. ppm 15.60%
Phosphorus (P), minimum .................................................. ppm 7.00%
Salt (NaCl), minimum .................................................. ppm 18.20%
Salt (NaCl), maximum .................................................. ppm 21.80%
Magnesium (Mg), minimum .................................................. ppm 1.00%
Potassium (K), minimum .................................................. ppm 0.10%
Copper (Cu), minimum .................................................. ppm 2,000
Selenium (Se), minimum .................................................. ppm 26.40
Zinc (Zn), minimum .................................................. ppm 7.50
Vitamin A, minimum .................................................. IU per lb 400,000
Vitamin D₃, minimum .................................................. IU per lb 20,000
Vitamin E, minimum .................................................. IU per lb 200

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE
Feed 4 ounces of Vigortone 3V2 SCTC-IGR Medicated per head daily to beef cattle weighing 1000 pounds. When used as directed Vigortone 3V2 SCTC-IGR Medicated will supply 350 mg of chlortetracycline per head per day and 35.7 mg of Altosid® per 100 pounds of body weight per month. Do not feed to lactating dairy cattle.

When used as directed Vigortone 3V2 SCTC-IGR Medicated will provide sufficient S-Methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season.

Introduction of this product after adult horn fly infestation is established will require treatment of cattle with adulticides if elimination of the adult fly population is desired.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool place.

Product Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Manufacturer: North American Nutrition Companies, Inc.
Brookville, OH 45309
