Skin: May be irritating to the skin.

Chronic: Repeated overexposure to 2,4-D herbicides may cause liver, kidney, gastrointestinal and muscular effects. Rare cases of peripheral nerve damage have been reported but extensive animal studies have failed to substantiate these observations, even at high doses for prolonged periods.

Emergency First-Aid Procedures

Eyes: Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes.

Skin: Remove contaminated clothing and immediately wash with plenty of soap and water.
