Section 1: Product and Company Identification

Product Name: ADVANTIX 55 K9 4 PACK
Material Number: 2935175
EPA Registration Number: 
Chemical Family: Pyrethroid Insecticide
Chemical Name: (3-Phenoxyphenyl)methyl 3-(2,2-dichloroethenyl)-2,2-dimethyl-cyclopropanecarboxylate
Formula: C12 H20 Cl2 O3 (for permethrin)

Section 2: Composition/Information on Ingredients

Section 3: Hazards Identification

EMERGENCY OVERVIEW

CAUTION! Toxic. Combustible. Color: Dark brown Form: Liquid Odor: Aromatic
May cause eye, skin, and respiratory tract irritation. Harmful if inhaled. Inhalation may cause nausea or dizziness. May cause nervous system damage. Ground containers and equipment before transferring to avoid static sparks.

POTENTIAL HEALTH EFFECTS

Route(s) of Entry: Inhalation, Skin Absorption, Skin Contact, Eye Contact

HUMAN EFFECTS AND SYMPTOMS OF OVEREXPOSURE

Inhalation Hazards
Acute Inhalation Hazards: Expected to be toxic by inhalation. May cause respiratory tract irritation with symptoms of coughing, sore throat and runny nose. Overexposure to vapor may produce dizziness, drowsiness, or nausea.

Skin Hazards
Acute Skin Hazards: May cause slight irritation. Not expected to be a skin sensitizer. Paraesthesia (a tingling or burning sensation on the surface of the skin) may result from skin contact with synthetic pyrethroids and normally subsides without treatment within 24 hours.

Eye Hazards
Acute Eye Hazards: May cause irritation with symptoms of reddening, tearing and stinging.

Ingestion Hazards
Acute Ingestion Hazards: Symptoms of ingestion may include abdominal pain, nausea, vomiting, and diarrhea.

General Effects of Exposure
Chronic Effects of Exposure: Analysis of chronic feeding studies in both mice and rats with permethrin resulted in the conclusion that permethrin’s potential for induction of oncogenicity in experimental animals is low, and that the likelihood of oncogenic effects in humans is nonexistent or extremely low. Chronic exposure to the solvent can cause defatting of the skin. Chronic exposure to organic solvents has been associated with various neurotoxic effects including permanent brain and nervous system damage.

Carcinogenic Components:
NTP: None
IARC: None
OSHA: None
Medical Conditions Aggravated by Exposure:  
Eye disorders, Skin disorders, Respiratory tract disorders

Section 4: First Aid Measures

First Aid for Eye:  
Use fingers to ensure that eyelids are separated and that the eye is being irrigated. Get medical attention if irritation develops or persists.

First Aid for Skin:  
In case of skin contact, wash affected areas with soap and water. Wash clothing and shoes before reuse. Contact a physician if irritation develops.

First Aid for Inhalation:  
If inhaled, remove to fresh air. If breathing is difficult, give oxygen. Call a physician.

First Aid for Ingestion:  
Contact a physician or Poison Control Center. Give two glasses of water for dilution. Avoid alcohol. If ingested, do not induce vomiting unless directed to do so by medical personnel. Do not give anything by mouth to an unconscious person.

Note to Physician:  
In case of human or animal poisoning, please contact the poison control center at 800-414-0244. Please also notify Bayer at 800-422-9874.

Section 5: Fire Fighting Measures

Flash Point:  
199 °F (92.8 °C)

Flammable Limits:  
Upper Explosion Limit (UEL %): Not Established  
Lower Explosion Limit (LEL %): Not Established

Extinguishing Media:  
Suitable: Water, Foam, Carbon Dioxide, Dry Chemical

Special Fire Fighting Procedures:  
Firefighters should be equipped with self-contained breathing apparatus to protect against potentially toxic and irritating fumes. Use cold water spray to cool fire-exposed containers to minimize risk of rupture. Closed container may explode when exposed to heat. Do not allow fire fighting water to enter sewer, surface waters, or ground water systems. Equipment and materials used in fighting pesticide fires may become contaminated.

Section 6: Accidental Release Measures

Spill or Leak Procedures:  
Evacuate and keep unnecessary people out of spill area. Remove all sources of ignition, including flames, flares, sparks, and gas engines.
Use appropriate personal protective equipment during clean up. Recover uncontaminated product, if possible. Cover spill area with inert material (e.g., dry sand, vermiculite, or earth) and collect for proper disposal. Scrub contaminated area with detergent and bleach solution. Wash spill area with water. Soil, absorbents, and other materials that are contaminated by the spilled product should be collected for proper disposal. Do not allow spilled material or wash water to enter sewers, surface waters, or groundwater systems.

Section 7: Handling and Storage

Storage Temperature:
Minimum: 10 °F (-12 °C)
Shelf Life: Not Established
Special Sensitivity: Avoid extreme heat. Avoid contact with moisture/water. Protect from freezing.
Handling/Storage Precautions: Store in a dry place in original or waterproof containers. Store in an area designated specifically for pesticides. Store separate from food products. Keep away from heat, sparks and open flame.

Section 8: Exposure Controls/Personal Protection

Personal Protection Equipment
Eye Protection Requirements: Chemical safety goggles or glasses.
Skin Protection Requirements: Permeation resistant gloves, Permeation resistant footwear, Permeation resistant clothing
Ventilation Requirements: Use local and general exhaust ventilation to control levels of exposure.
Respirator Requirements: A NIOSH approved respirator for pesticides can be used to minimize exposure.
Additional Protective Measures: Emergency showers and eye wash stations should be available. Educate and train employees in the safe use and handling of this product. Follow all label instructions. Launder clothing separately after use. Employees should wash their hands and face before eating, drinking, or using tobacco products.

Section 9: Physical and Chemical Properties

Physical Form: Liquid
Color: Dark brown
Odor: Aromatic
pH: Not Established
Boiling Point: Not Established
Melting/Freezing Point: Not Established
Specific Gravity: Not Established
Bulk Density: 8.2 lb/gal
Percent Volatile by Volume: Not Applicable
Vapor Pressure: Not Established
Vapor Density: > 1

Section 10: Stability and Reactivity

Stability: Stable
Hazardous Polymerization: Will not occur
Substances to Avoid: Oxidizing agents, Bases
Conditions to Avoid: Avoid extreme heat.
Decomposition Products: Carbon Dioxide, Carbon monoxide, Hydrogen chloride, Chlorine, Other potentially toxic fumes

Section 11: Toxicological Information

Toxicity Data for ADVANTIX 55 K9 4 PACK
Acute oral toxicity: LD50 = > 2,000 mg/kg bw (Rat)
LD50 = 1,660 mg/kg bw (Female Rat)
Acute dermal toxicity: LD50 = > 2,000 mg/kg bw (Rat)
Acute inhalation toxicity: > 3.56 mg/L, 4 hrs, (Rat)
Eye Irritation: Moderately irritating (Rabbit)
Skin Irritation: Slightly irritating (Rabbit)
Sensitization: non-sensitizer (Guinea pig)

Section 12: Ecological Information

Ecological Data for ADVANTIX 55 K9 4 PACK
Ecological Note: No data available for this product.

Section 13: Disposal Considerations

Waste Disposal Method: Waste disposal should be in accordance with existing federal, state and local environmental control laws.
Section 14: Transportation Information

Technical shipping name: Pesticide

Freight Class
   Bulk: Insecticides, N.O.I. (NMFC 102120)
   Package: Insecticides, N.O.I. (NMFC 102120)

Domestic Surface Transportation (DOT)
Hazard Class or Division: Non-Regulated

Marine Transportation (IMO / IMDG)
Hazard Class Division Number: Non-Regulated

Air Transportation (ICAO / IATA)
Hazard Class Division Number: Non-Regulated

Section 15: Regulatory Information

United States Federal Regulations

OSHA Hazcom Standard Rating: Hazardous

TSCA Inventory List: This product is excluded from TSCA Regulation under FIFRA Section 3 (2)(B)(ii) when used as a pesticide.

FIFRA Status: This product is registered with the EPA under FIFRA.

RCRA Status: If discarded in its purchased form, this product would not be a hazardous waste either by listing or by characteristic. However, under RCRA, it is the responsibility of the product user to determine at the time of disposal, whether a material containing the product or derived from the product should be classified as a hazardous waste. (40 CFR 261.20-24)

The following chemicals are specifically listed by individual states; other product specific health and safety data in other sections of the MSDS may also be applicable for state requirements. For details on your regulatory requirements you should contact the appropriate agency in your state.
