DIRECTIONS FOR USE

When growth reappears.
and table tops. Apply use-solution of ½ oz. per gallon of water with a cloth, mop, sponge, or use-cloth to disinfect nonporous athletic mats, wrestling mats, gymnasium mats, exercise equipment and training tables.

Apply to clean and disinfect nonporous personal protective equipment, wrestling headgear, boxing headgear, protective headgear, athletic helmets, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors, and earplugs. Rinse all equipment that comes in prolonged contact with skin with warm water and allow to air dry before reuse. (Caution: Cleaning at the 130°F temperature will avoid distortion and the personal safety equipment that would be needed.)

Kills Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica, Escherichia coli, and Listeria monocytogenes

Bactericidal: against Pseudomonas, Staphylococcus aureus and Salmonella enterica

Fungicidal: against Aspergillus, Penicillium, Rhizopus

Virucidal: against HIV, Hepatitis B virus and Hepatitis C virus

QUAT 256

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that comes in contact with the human body, either into or on in or out of contact with blood or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prelean or decontaminate or critical or semi-critical devices prior to sterilization or high-level disinfection.

MILDEWSTATIC INSTRUCTIONS:

For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities follow disinfection directions.

FUNGICIDAL DIRECTIONS:

At face masks, and wash clothing before reuse.

IF IN EYES: Hold eye open and rinse slowly with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then rinse continuously for 15 minutes.

INHALATION INSTRUCTIONS:

When growth reappears.

Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or splash protection, protective headgear, athletic helmets, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors, and earplugs). Rinse all equipment that comes in prolonged contact with skin with warm water and allow to air dry before reuse. (Caution: Cleaning at the 130°F temperature will avoid distortion and the personal safety equipment that would be needed.)

If these wastes cannot be disposed according to federal, state, and local regulations for infectious waste disposal.

Laws and regulations for infectious waste disposal.

Disposal of Infectious Materials:

DANGER. CORROSIVE. Causes irreversible eye damage and skinburns. Harmful if swallowed.

Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or splash protection, protective headgear, athletic helmets, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors, and earplugs). Rinse all equipment that comes in prolonged contact with skin with warm water and allow to air dry before reuse. (Caution: Cleaning at the 130°F temperature will avoid distortion and the personal safety equipment that would be needed.)

If inhaled, wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

For use in hospitals, nursing homes, schools, colleges, universities, commercial and industrial environments, and institutional and commercial properties.

For use in locker rooms, dressing rooms, shower and bath areas and exercise facilities.

Do not get in eyes, on skin, or on clothing.

Wear protective eyewear (goggles, face shield or splash protection, protective headgear, athletic helmets, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors, and earplugs). Rinse all equipment that comes in prolonged contact with skin with warm water and allow to air dry before reuse. (Caution: Cleaning at the 130°F temperature will avoid distortion and the personal safety equipment that would be needed.)

Disinfectant

Pseudomonas aeruginosa

Staphylococcus aureus

Salmonella enterica

Escherichia coli

Fusarium monophorum

Klebsiella pneumoniae

Legionella pneumophila

L. monocytogenes

Active ingredients:

For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities follow disinfection directions.

MICROSTEADY INSTRUCTIONS:

Will effectively control the growth of mold and mildew plus the spores that are carried by them and other airborne particles on all hard, nonporous surfaces such as walls, ceilings, walls and tabletops. Apply use-solution of 1 oz. per gallon of water with a cloth, mop, sponge, or coarse spray device. Make sure to wet all surfaces completely. Let air dry. Repeat weekly or as growth reappears.

CLEANING AND DISINFECTING HARD NONPOROUS SURFACES ON PERSONAL PROTECTIVE EQUIPMENT:

Apply solution to hard, nonporous surfaces of the respirator with a brush, coarse spray device, sponge, or by immersion. Thoroughly wet all surfaces to be disinfected. Treated surfaces must remain wet for 10 minutes. Remove excess solution from equipment prior to storage. Comply with all OSHA regulations for cleaning respiratory protection equipment (29 CFR § 1910.134).

For use in locker rooms, dressing rooms, shower and bath areas and exercise facilities.

Do not use for cleaning respiratory protection equipment.
