**FIRST AID**

**HAZE LABEL WHEN OBTAINING TREATMENT ADVICE**

If you experience signs and symptoms such as nausea, abdominal pain, tightness in chest, or weakness, see a physician immediately. For information on health concerns, medical emergencies, or pesticide incidents, call the National Pesticide Information Center at 1-800-858-7378.

**If Swallowed:**
- Call a Poison Control Center, doctor, or 1-800-498-5743 immediately for treatment advice or transport the patient to the nearest hospital.
- Do not give any liquid to the patient.
- Do not administer anything by mouth.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

**If on Skin or Clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15–20 minutes.
- Call a Poison Control Center, doctor, or 1-800-498-5743 immediately for treatment advice.

**If Inhaled:**
- Move person to fresh air.
- If person is not breathing call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible.
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice.

**If In Eyes:**
- Hold eye open and rinse slowly and gently with water for 15–20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then rinse eye.
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the Phosphine-producing active, Zinc Phosphide. Probably mucosal damage may contraindicate the use of gastric lavage. For animal ingesting bait and/or showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given. See inside booklet for additional precautionary statements.

For 24-hour emergency information on this product, call 1-800-498-5743 (US & Canada) or 1-651-522-0318 (all other areas).

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION:**

- Harmful if swallowed, absorbed through the skin, or inhaled.
- Causes moderate eye irritation. Avoid breathing dust. Avoid contact with eyes, skin, or clothing.

**Personal Protective Equipment:**
All handlers, including loaders and applicators, must wear long sleeve shirt, long pants, shoes, socks, and waterproof gloves.

In addition, persons loading pellets or baits into aircraft or mechanical ground equipment and persons loading/applying with a hand-held or hand-held equipment, such as a push-type spreader or cyclone spreader, must wear a dust/mist filtering respirator (N95 or better) and protective eyewear.

Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

**User Safety Requirements:**
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet, and change into clean clothing.

**ENVIRONMENTAL HAZARDS**
This product is extremely toxic to birds, fish and other wildlife. Wildlife feeding on treated bait may be killed. Dogs, cats, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

**RESTRICTED USE PESTICIDE DUE TO HAZARD TO NON-TARGET SPECIES**
For retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator’s certification.

**ACTIVE INGREDIENT:**

**PRODUCT**
Prozap Zinc Phosphide Oat Bait

**FOR USE**
Rangeland, pastures, rights-of-way, alfalfa, timothy, sugarcane, grape vineyards, fruit tree orchards, macadamia nut orchards, in and around buildings, and other sites to control the species listed in the use directions.

**DIRECTIONS FOR USE**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Before using this product, read this label and the attached booklet all Precautionary Statements and all sections of the Directions for Use that are relevant to the sites where you intend to use this product and to the type(s) of rodents that you intend to control.

**STORAGE AND DISPOSAL**
Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:**
Store only in original container, in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:**
Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:**
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. If container is not to be recycled, then dispose of bags in an approved waste disposal facility or by incineration.

**CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY**

**NOTICE:**
Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

Manufacturer and Seller warrant that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Manufacturer or Seller, and Buyer and User assume the risk of any such use. To the extent consistent with applicable law, Manufacturer and Seller make no warranties of merchantability or of fitness for a particular purpose nor any other express or implied warranty except as stated above.

To the extent consistent with applicable law, in no event shall Manufacturer or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

Manufacturer and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitations of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Manufacturer.

**Item No. 002980**
ZINC PHOSPHIDE OAT BAIT

For sale in 10- and 25-pound containers, available in paper, cloth, stainless steel, aluminum and polypropylene containers. For broadcast, combined with 2-8% water to facilitate mixing and to prevent clumping of the bait. For broadcast, the bait must be mixed with 2.5 to 5% water to make a paste; for broadcast in tamper-resistant bait station, add 1.75% water. Do not mix with water exceeding 5% of bait weight.

APPLICATION DIRECTIONS:

1. Select treatment areas.
2. Determine the total amount of bait required for the treatment area. (See page 7.)
3. Dispose of excess bait from application equipment by burial. Do not contaminate water, food or feed by storage or disposal.
4. Inhibit this product is used in accordance with regulations.
5. For control of California ground squirrels (Spermophilus beecheyi) in noncrop rights-of-way next to canal and ditch banks and other noncrop areas where plants are grown for food or feed. Consult local, state and federal game authorities before use to avoid creating a feeding zone for predators and scavengers.
6. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles.

HAND BAITING:

1. Select treatment areas.
2. Determine the total amount of bait required for the treatment area. (See page 7.)
3. Dispose of excess bait from application equipment by burial. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles.
4. Inhibit this product is used in accordance with regulations.
5. For control of California ground squirrels (Spermophilus beecheyi) in noncrop rights-of-way next to canal and ditch banks and other noncrop areas where plants are grown for food or feed. Consult local, state and federal game authorities before use to avoid creating a feeding zone for predators and scavengers.
6. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles.

HAND BAITING IN NONCROP AREAS

Each has Lewins, Ornamental, Garden, Cattle, Poultry, and Pardness

APPLICATION DIRECTIONS:

1. Select treatment areas.
2. Determine the total amount of bait required for the treatment area. (See page 7.)
3. Dispose of excess bait from application equipment by burial. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles. Do not contaminate water, food or feed by storage or disposal. Do not apply to bare ground. Do not place bait in piles.
4. Inhibit this product is used in accordance with regulations.
5. For control of California ground squirrels (Spermophilus beecheyi) in noncrop rights-of-way next to canal and ditch banks and other noncrop areas where plants are grown for food or feed. DIRECTIONS FOR USE

Complete the following directions so the use of this product is in a manner consistent with the labeling:

READ THE LABEL. The laws of the state and province in which this product is used will apply. Read the entire label and follow all use directions and precautions.

DRUG INTERACTIONS

If you are taking any medicine that might interact with or affect the results of a blood glucose monitoring device, please contact your health care provider or pharmacist before using this product.

SAFETY EXERCISE

Before using this product, all workers or handlers of this product and all those likely exposed to or through drift exposure to this product shall be provided with safety training and work with appropriate protective equipment to minimize undue risk. The label instructions shall be given in a language customarily understood by workers who are expected to be in a treated area or in an area about to be treated with this product. Written precautions must be given if there is a reason to believe that written precautions cannot be understood by workers who are expected to be in a treated area or in an area about to be treated with this product. Written precautions must include the following information:

1. A brief statement of the identity of the product contained in the package.
2. A description of the condition the product is intended to control, treat, or prevent.
3. A description of the condition of any species other than human beings that may be killed or injured by the intended use of this product.
4. A description of the species and the area that will be treated.
5. A description of the areas of the environment which the product is intended to control, treat, or prevent.

The use of this product is not intended to control the species indicated in the directions for use. See the directions for use of the product for the species and areas to be controlled.

OVERVIEW

In order to maintain a balance of nature and conserve wildlife and biological diversity, this product is intended to control certain species of rodents that are considered pests, weeds, or vectors of disease. The product is intended to be used in a manner consistent with the direction for use and to control these species.

PRODUCT USE

This product must not be used in the following locations except in tamper-proof bait boxes (within 10 miles of the confluence of the Sacramento River and the San Joaquin River) (California), or adjacent to the confluence of the Sacramento River and the San Joaquin River (California). Do not apply this product when it is not needed, or when the species to be controlled is not present, or when application is not within the permitted area or time.

USE RESTRICTIONS

For control of prairie dogs, black-tailed (C. gunnisoni) and Richardson’s (C. richardsonii) (California) and black-footed (C. nigripes) (Montana, Wyoming) near the base of infested stock, place teaspoon quantities of bait in 2-4 locations, by machine or hand. Do not allow this product within 200 feet of range lines. Two to four bait spots should be made near the base of each infested stock. Do not broadcast bait over growing crops other than alfalfa, except in lawns, golf courses, noncrop areas and alfalfa.

GROUND SQUIRRELS:

In California, controlled application is to be made only by a licensed Class C Rodent Control Operator.

This product is intended to control the species listed in the following table except that the product may not be used in the following locations:

- On or near newly terminated or recently mowed lawns
- On growing crops other than alfalfa
- On treated oat groats per mound, one or two days prior to using toxic bait. Establish observation period for at least 21 days after the last application. Remove uneaten portions of bait. The preharvest interval is 7 days.

Their habitat must be thoroughly cleaned and all removed baits must be removed. If the infestation is not controlled prior to plowing, 30 days after baiting, additional baiting may be necessary. Baiting shall not be conducted closer than 33 feet to objects such as ditches, gopher burrows, or areas where baits have been consumed. Be sure that all baits are consumed before applying additional bait. If baits have been consumed, the product must not be used in the following locations:

SUGGESTED MEASURES TO PROTECT ENDANGERED SPECIES

Contact local wildlife agencies to inquire if an Interim Measures pamphlet exists for your county and have one sent to you. You can also find out if a black-footed ferret survey is required at your Service office to determine whether a black-footed ferret survey is required.
