LIQUID COPPER SULFATE
Intended for Industrial Use Only

First Choice Labels - 703 Big Stone Gap Road • Suite A • Duncanville, TX 75137

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
DANGER Corrosive. Causes irreversible eye damage. Causes skin burns. Harmful if inhaled or skin-in-eye or on skin. May be fatal if swallowed. Prolonged or frequent exposure to skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment (PPE): Some materials that are harmful to the skin are: butyl rubber, neoprene rubber, neoprene PVC, and others. If you want more options, follow the instructions for category C on EPA chemical-resistance-category selection chart. Mixers, loaders, applicators and other handlers must wear the following:
- Covers over long-sleeved shirt and long pants.
- Chemical-resistant gloves made of any water-resistant material; goggles and face shield; and chemical-resistant footwears with socks.
- When mixing and handling wear a chemical-resistant apron.
- Wash outside of gloves before removing. Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Do not wear and keep PPE separate from other laundry. Discard clothing and other absorbent materials that have been damaged or heavily contaminated with this product or its concentrate. Do not reuse these.

User Safety Recommendations:
- Use should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove and wash PPE immediately if pencil points into the eyes. Wash thoroughly and change into clean clothing.
- Wash the outside of gloves before removing.

For applications in waters destined for use as drinking water, those waters must receive additional and separate water treatment. Do not apply more than 1.0 luggage and copper sulfate per MMg raw water (maximum use) x 1 gal per 9.85 pounds = 6.75 gallons Liquid Copper Sulfate per MMg raw water. This is the equivalent of 8 parts per million liquid copper sulfate in these waters.

ENVIROMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. Waters treated with this product may be hazardous to aquatic organisms. Treatment of aquatic algae and algae can result in oxygen loss from decomposition of dead algae and weeds. This oxygen loss can cause fish and invertate to suffocate. To minimize the hazard, do not treat more than 1.0 of the water body to avoid depletion of oxygen due to decomposition. Wait at least 14 days between treatments. Begin treatment along the shore and proceed inward in bands to allow for move into underwater water. Note: if treated water is to be used as a source of potable water, the copper content of the 

**STORAGE AND DISPOSAL:**
Do not contaminate water, food or feed by storage and disposal.

**RESTORE STORAGE:** Keep pesticides in original container. Do not put concentrate or dilutions of concentrate in food or drink containers.

**RESTORE DISPOSAL:** Pesticide residues are acutely hazardous. Improper disposal of untreated, expired, aerosolized, or rejected pesticides is illegal. If these wastes cannot be disposed of by using according to label instructions, contact your State Pestosis or Environmental Control Agency, or the Hazardous Waste Reprogram at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 14 full with water. Replace and tighten closures. To contain the mixture and rinse out the tank, equalize the contents. For most mixtures, equalize by stirring or scraping the sides and bottom of the container. For those mixtures that cannot be stirred or scraped, equalize by small amounts of water.

**JOB DESCRIPTION:** Liquid Copper Sulfate

DATE: 3/15/13

Need: 55 Gallons 1 55 Gallons
