ForeFront™ R&P

EPA Reg. No. 62719-524

For Control Of Broadleaf Weeds And Certain Woody Plants

(Not For Sale, Distribution, or Use in New York State)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for ForeFront™ R&P herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of ForeFront R&P according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for ForeFront R&P.

The following weeds will be controlled at 1.5 to 2.6 pint/acre. For best results, apply when weeds are actively growing and conditions favorable for plant growth. Use a higher rate in the rate range when growing conditions are less than favorable, when weeds are mature, or when weed foliage is tall and dense or when residual control is important. ForeFront R&P also provides preemergence control of germinating seeds or emerged seedlings of susceptible weeds following application.
