**Triple Quick Fresh & Clean Disinfecting Cleaner**

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a dilution and manner not specified on this label. This product is not to be used as a terminal household disinfectant on any surface or instrument (1) directly on or in contact with the bloodstream or normally sterile area of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood or other tissues of the body.

**DISINFECTION, DEODORIZING AND CLEANING**

- **Remove** grime, film or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for 1 minute and for HIV and HBV for 5 minutes). Wipe off with a clean cloth, mop or sponge, and thoroughly rinse all surfaces in the area with potable water. Wipe off treated areas immediately after using this product. Do not use on electronic devices, clothing or porcelain.

- **Disinfect food service establishment food contact surfaces** before using this product, food products and packaging materials must be removed or covered. For countertops, appliances, tables, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow product to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for 1 minute and for HIV and HBV for 5 minutes). Wipe off with a clean cloth, mop or sponge, and thoroughly rinse all surfaces in the area with potable water. Wipe off treated areas immediately after using this product. Do not use on electronic devices, clothing or porcelain.
