DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with the label.
- Hold container upright, nozzle away from you and press actuator button spraying as directed.
- TO TREAT ANIMALS: To protect cattle from attacks of stable flies, horse flies, deer flies, house flies, horn flies, mosquitoes, and gnats. Apply spray about 3 seconds on each side being careful to spray back, withers and forelegs thoroughly. To protect from face flies, spray the face and head, but do not spray into the eyes. Repeat treatment as necessary when flies are troublesome.

In Animal Quarters & Milk Rooms:
- For rapid control of house flies, mosquitoes, gnats, wasps, and flying moths close windows and doors and spray at the rate of one second per 1000 cubic feet of space. For best results keep area closed for 10 minutes after spraying. Do not remain in treated area and ventilate after treatment is completed.
- HOME AND FOOD PROCESSING AREA USE:
- For flies, mosquitoes, small flying moths (millers), and gnats. Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated areas. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed. Roaches, Waterbugs, Sawbugs, Spiders, and Centipedes spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, basements, and storage areas. Spray directly on insects, in cracks, and voids. Repeat no more than once per day.

FOR USE IN STORAGE AREAS:
- This product can be used in warehouses, barns, and trucks. Apply mist to milks, his, benn pipes, elevators, and conveyance equipment as a clean up prior to storage for control of Indian Meal Moth, Rice Weevil, and Confused Flour Beetle. For pest control of Almond Moths, Grains, and Tobacco Moths. Use in potato bin rooms or potato storage areas. Feed, flour, grains, and seeds are naturally treated with the insecticide and will remain effective for the life of the product. Use before storing in granaries, elevators, and handling equipment. Do not use in areas where humans or animals are not present.

Storage and Disposal
Do not contaminate water, food, or feed by storage or disposal.
- STORAGE: Store in a cool, dry place away from children, pets, and livestock. Keep out of reach of children.
- CONTAINER DISPOSAL: Do not puncture or incinerate. Place in trash or offer for recycling if available. If container is unneeded, return to Chem-Tech, Ltd.
- NOTICE: It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Chem-Tech, Ltd., the manufacturer or seller. In no case shall Chem-Tech, Ltd., the manufacturer or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.
