**CONCENTRATED SOLUTION:**

**For heavily soiled areas,** a preliminary cleaning is required. For spray applications, use a coarse spray device. Start the pump to circulate the solution. Wash down any uncovered surfaces on the unit after emptying. For heavily soiled areas, an immersion immersion. Treated surfaces must remain wet for 10 minutes. Wipe dry with a cloth, sponge or mop or allow to air dry. Repeat treatment every seven days, or more often if new growth appears. For mold and mildew:

At 1 oz. per gallon, Whizzer® will effectively inhibit the growth of mold and mildew and the odor-causing bacteria from floor-applied, hard-surface finishes. Follow disinfection instructions. Repeat treatment every 10 days or more often if growth appears.
