DIRECTIONS FOR USE

Storage and Disposal:

Use only in areas that are well-ventilated. Keep container closed while in use. Mix old solution into a new one and then discard old solution. Keep container closed between uses. Siphon or pour into a large container or into a waste disposal system. Do not contaminate water, food or feed by storage or disposal.

Directions for Sanitizing Food Contact Surfaces:

1. Remove gross food particles by a prescrape, preflush, and when necessary, a presoak treatment.
2. Rinse with clean water.
3. Use to sanitize previously cleaned, hard, nonporous food contact surfaces. Use 1/2 oz. (25 ppm titratable iodine) per 2 1/2 gals. of 75-100 deg. water for sanitizing (provides 25 ppm titratable iodine). No rinsing necessary.
4. Allow surfaces to remain wet for 10 minutes then wipe dry.
5. Drain and air dry.

Directions For Food Contact Surface Sanitizer:

1. Remove heavy soil or gross filth prior to disinfection step. To disinfect hard, non-porous surfaces, use 2/3 oz. (75 ppm titratable iodine) per 2 1/2 gallons of water (> 75 ppm titratable iodine). Apply to 2 1/2 gals. of 75-100 deg. water (≥ 75 ppm titratable iodine). Apply for 1 minute on hard, non-porous surfaces. Renew solution daily or before amber color disappears. Do not use on silver and silverplate. May cause blackening.
2. Drain and air dry.
3. The iodine solution can be used as a cleaning agent. Use up to 2 1/2 gals. of water (≥ 75 ppm titratable iodine) or other recommended detergent. 3. Rinse with clean water.
4. Use to sanitize previously cleaned, hard, nonporous food contact surfaces. Use 1/2 oz. (25 ppm titratable iodine) per 2 1/2 gals. of 75-100 deg. water for sanitizing (provides 25 ppm titratable iodine). No rinsing necessary.
5. Allow surfaces to remain wet for 10 minutes then wipe dry.
6. Drain and air dry.

SANITIZING EATING, DRINKING AND FOOD PREP UTENSILS:

Directions For Sanitizing Food Contact Surfaces:

1. Immerse all utensils for at least 1 minute or contact time specified by governing sanitary code. Renew solution before amber color disappears. Do not use on silver and silverplate. May cause blackening.
2. Drain and air dry.

PRECAUTIONARY STATEMENTS

DANGER: Contains iodine. Harmful if swallowed. The ingestion of this product may cause violent evolution of toxic gases. Exposure may result in irritation of the respiratory tract. If swallowed, do not induce vomiting. Call a poison control center or doctor for treatment advice.

FIRST AID

IF SWALLOWED:

If swallowed, do not induce vomiting.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If spilled, flush to drain with a large quantity of water.

If spilled, flush to drain with a large quantity of water.
